32 EXPEDITION - GO BOATING WHEN OTHERS WOULDN'T DARE LEAVE THE DOCK

Aluminum Chambered Boats (ACB), Inc. Bellingham, Wash. (May 22, 2007) – Fishing, cruising, diving, rough water boating, or simply relaxing. The opportunities are unlimited when you have the privilege of being aboard the 32 Expedition. A vessel that is built tough as nails for year around, rough water boating. The abundant deck space and an easy walkaround add convenience to your outside activities while the comfortable and spacious 13' 4" cabin provides comfort when you want to escape from the elements. All of this wrapped up in a hull designed for unsinkable safety and a smooth, not spine jarring, ride.

ACB has a reputation for building virtually unsinkable, extremely fuel efficient, high performance boats for government and commercial applications – for mariners who have to respond when a mission calls – for people that don't get to choose the conditions. All of the stringent rugged requirements for those applications are built in our recreational boats too – ACB owners go boating when others wouldn't dare leave the docks.

ACB Builds a variety of recreation models from 25-32'. For additional information, or to schedule time on an ACB, please contact Laura Kaestner at (360) 647-0345.

Aluminum Chambered Boats Inc. is an aluminum boat manufacturer headquartered in Bellingham, Wash. ACB provides rugged state-of-the-art high performance aluminum boats to Government, Recreational and Commercial customers on a global basis.
