ACB is Awarded \$9.88 M Contract to Replace USCG's Aging Cutter Boat-Large Vessels

Aluminum Chambered Boats (ACB), Inc. Bellingham, Wash. (June 12, 2007) – ACB has been awarded the \$9.88 M contract to provide the United States Coast Guard (USCG) with 47 rigid hull inflatable boats for their Cutter Boat-Large (CB-L) fleet. This is a five year contract with the first boat deliverable in 90 days.

The ACB CB-L will replace the USCG's aging fleet. The 24-foot CB-L is a center console vessel capable of conducting multiple missions in all weather conditions such as search and rescue (SAR), maritime law enforcement (MLE), ports and waterways and coastal security. The CB-L is designed to carry a three man crew and up to nine passengers, is equipped with shock mitigated seating for the crew and gun mounts to accommodate M240G/M16 forward and aft for MLE missions. Powered with a Cummins QSD 2.8 230 HP Bravo 1 with Mercury outdrive, the vessel's top speed is 39.5 knots.

ACB has built a team of numerous seasoned military and marine industry professionals with collective skill sets that provide the basis of the ACB construction and logistics team. We have a reputation for delivering quality on time, on budget and have satisfied customers from all branches of the US military. ACB has recently completed fielding 66 MK III Bridge Erection Boats to the US Marine Corps and are currently providing worldwide 15-year support on the same contract.

Aluminum Chambered Boats Inc. is an aluminum boat manufacturer headquartered in Bellingham, Wash. ACB builds patented, rugged, state-of-the-art high performance aluminum boats to Government, Recreational and Commercial customers on a global basis.
